ARRIVAL PROCEDURES

PASSENGERS AND CREW ARRIVALS

MEET AND GREET

A Universal Aviation staff member will greet you on the tarmac upon arrival. Depending on the parking position assigned to the aircraft, we will either board a ground transport vehicle or walk into the private lounge located next to the Terminal. The lounge is located on the first floor of the Main Terminal, above Departures Hall. The lounge provides a quick, smooth, and quiet area for GA passengers without waiting in long lines.

A staff member will assist with processing all luggage through security and customs while passengers and crew watch. After all passengers and crew clear customs and immigration, a staff member will escort them to meet their ground transportation vehicle at the landside entrance of the Terminal.

LUGGAGE

HANDLED VIA A UNIVERSAL STAFF MEMBER AND PORTERS

Our porters will always transport your luggage. Your luggage is never left unattended. A staff member will escort all passengers to their ground transportation vehicle upon clearance CIQ. Everyone's luggage will be transported to their vehicles.

PARKING

GA PARKING DURING PEAK SEASON IS NOT AVAILABLE

Per Greek NOTAM, Mykonos only allows operators to remain on the ground for a maximum of 40 minutes from June to September or even further if demand remains high. While drop and goes are always an option at Mykonos, you'll need to carefully juggle the schedule based on available PPRs and airport slots. Operators are encouraged to send their slot requests in as soon as possible to ensure their ability to travel to Mykonos.

Mykonos has only nose-in parking positions for mid/large jets. Operators are advised to load their tow bar/tow head and have it available. Even though there is equipment for several aircraft types available in Mykonos, having to use a push-back tractor may result in waiting for a while until the equipment is free from the previous aircraft.

PETS

BRINGING PETS TO GREECE

Bringing your pet to Greece is generally more straightforward than many other international destinations. First, it's vital to ensure the pet has a valid health certificate and has been either microchipped or tattooed. Pets are permitted into Greece with a pet passport, microchip, and a valid vet health certificate.

SECURITY

MUST MAKE ARRANGEMENTS BEFORE ARRIVAL

Aircraft security is not a concern since aircraft remain on the ground only for short turnarounds. There are security teams on the island offering their services. Universal Aviation Greece can make arrangements if needed.

HELICOPTER TRANSFERS

MUST MAKE ARRANGEMENTS BEFORE ARRIVAL

We have an agreement in place with Heli companies that can support our clients. Since Heli transfers are common in Greece, please plan your trip a few days in advance to secure the Heli of our choice and according to your needs.

DEPARTURE PROCEDURES

PASSENGERS AND CREW ARRIVALS

ARRIVING AT THE AIRPORT

We strongly recommend all passengers call our ops and advise roughly the time we should expect them for their departure. Departing passengers and crew should be dropped off at the lounge entrance, where they will clear CIQ and security and proceed to the aircraft. A Universal staff member will stand curbside with porters to assist with luggage. Oversize luggage will have to go through the Terminal as the screening machine accepts luggage up to a specific size.

LUGGAGE

HANDLED VIA UNIVERSAL STAFF MEMBERS AND PORTERS

Porters will collect all luggage from your vehicle and take it for screening. Since luggage follows the same path as airline passengers' it's probable to take longer than passengers to arrive at the aircraft, depending on the amount of luggage. Those delays would not exceed 5-10 minutes. You may send your luggage to us in advance to be processed and avoid delays. Your luggage will always be escorted by our porters and never left unattended.
