

LA ISABELA AIRPORT:

THE *REAL* SANTO DOMINGO AIRPORT FOR GA

For business aircraft operators visiting Santo Domingo, there are two airport options – Las Américas Airport (MDSD) and La Isabela Airport (MDJB). La Isabela is the superior choice for most GA operations, but it's often overlooked.

Many assume that Las Américas, commonly called “Santo Domingo Airport,” is the closer option for the city, but it's not. Moreover, it's not as GA-friendly as La Isabela. That's why we say La Isabela is the *REAL* Santo Domingo Airport for GA.

To prove it, here's a quick comparison of the two airports:

	La Isabela Airport (MDJB)	Las Américas Airport (MDSD)
Drive Time to Business District	30 minutes	1.5 hours
Drive Time to Hotel District	30 minutes	1.5 hours
